CAREER OBJECTIVE

Construction professional with 7+ years of experience in procurement, billing and contract-related coordination for residential and commercial projects. Skilled in managing material procurement, preparing and verifying RA bills, supporting contract documentation and coordinating with project teams and subcontractors. Strong understanding of billing cycle, practical on-site requirements, ensure smooth workflow, timely updates and effective communication across project teams in every aspect of project execution.

WORK HISTORY

- 1. Vishal Group, Mumbai.**

Manager – Commercial (Billing & Procurement)

[April 2021 – Present]

 - Strategically direct the end-to-end procurement lifecycle, managing vendor qualification, comprehensive rate negotiations and subcontract finalization to maximize cost efficiencies and protect project margins.
 - Oversee the end-to-end RA (Running Account) billing lifecycle for both clients and subcontractors, ensuring flawless verification, timely submission and accelerated revenue realization.
 - Enforce strict financial control by material reconciliation processes and real-time budget tracking to minimize variance against baseline estimates.
 - Contract administration, proactively evaluating contract variations, pricing change orders, optimize project cash flow and driving proactive management of receivables, payables, and fund allocation.
 - Cultivate and govern a robust vendor and subcontractor ecosystem, establishing clear performance benchmarks and serving as the primary commercial arbiter to resolve complex billing disputes and contractual bottlenecks.
 - Lead, mentor, and structure a high-performing commercial team, optimizing daily workflows across contract management, billing, and procurement functions while aligning site execution teams.
- 2. Vishal Group, Mumbai.**

Assistant Billing Engineer

[Dec 2019 – Mar 2021]

 - Certified complex subcontractor invoices and finalized cross-verification of physical site measurements against BOQ terms.
 - Managed comprehensive material reconciliation audits to identify wastage patterns and drive cost recoveries.
 - Negotiated, quantified, and drafted rate analysis reports for non-tendered extra items and project variations.
 - Audited commercial billing cycles to guarantee complete alignment with strict contract terms and legal frameworks.
 - Advanced the use of automated MS Excel models and AutoCAD verification to accelerate bill clearance timelines.
- 3. RRC Ventures Pvt. Ltd, Mumbai.**

Assistant Billing Engineer

[July 2019 - Dec 2019]

 - Drafted routine subcontractor bills and compiled daily site measurement logs alongside site engineers.
 - Assisted in basic material reconciliation by matching theoretical consumption data with physical gate entries.
 - Logged and recorded on-site variation entries and extra item requests for senior review.
 - Verified entry-level commercial compliance checks to maintain data integrity across billing files.
 - Maintained basic measurement books (MB) and performed basic quantity take-offs from structural drawings.

4. Sura & Associates, Mumbai.

[July 2018 - June 2019]

Design Engineer Trainee

- Prepared AutoCAD drawings and assisted in basic structural design coordination.
- Assisted in design coordination between consulting teams and field execution units.
- Conducted routine site inspections to verify that on-ground structural work strictly complied with approved technical drawings.

5. Nilkanth Vijay Construction, Gujarat.

[Feb 2017 - Apr 2018]

Civil Site Engineer

- Supervised daily on-site civil construction activities to ensure strict adherence to design specifications, timelines, and safety standards.
- Supported project administration through preliminary quantity estimations, daily progress reporting, and basic documentation tracking.
